

International Webinar on

# CARDIOLOGY AND CRITICAL CARE

November 03, 2020

Theme: Explore the possibilities in future Cardiology

## SESSIONS

Interventional Cardiology
Nuclear Cardiology & Cardiac CT
Cardiac Electrophysiology
Pediatric Cardiology
Hypertension
Cardiac Transplantation
Cardiac Regeneration
Clinical and Interventional Cardiology
Women and Cardiac Arrhythmia
Heart Diseases & Heart Failure
Women and Cardiac Arrhythmia
Sports Cardiology
Nano Technology in Cardiac Science
Cardiovascular Toxicology and Pharmacology
Cardiac Nursing and Healthcare
Types of Cardiovascular Disease
Artificial Intelligence in Cardiology
Echocardiography & Cardiac Imaging
Clinical Case reports on cardiology
Cardiac and Cardiovascular Research
Case Reports on Cardiology

## TENTATIVE PROGRAM

### DAY 1

### DAY 2

Planary Talk	Keynote
11.00 - Break1	11.00 - Break1
Keynote	Oral Sessions
13.00 - Lunch	Women and Cardiac Arrhythmia
Oral Sessions	Case Reports on Cardiology
Interventional Cardiology	Heart Diseases & Heart Failure
Nuclear Cardiology & Cardiac CT	Women and Cardiac Arrhythmia
Cardiac Electrophysiology	Nano Technology in Cardiac Science
Pediatric Cardiology	13.00 - Lunch
Oral Medicine	Oral Sessions
Hypertension	Cardiac and Cardiovascular Research
Cardiac Transplantation	Artificial Neural Networks
Cardiac Regeneration	Cardiac Nursing and Healthcare
Clinical and Interventional Cardiology	Types of Cardiovascular Disease
Sports Cardiology	16.00 Break 2
Cardiovascular Toxicology and Pharmacology	Poster Presentations
	Clinical Case reports on cardiology
